Lesson 9 (May 31, 2020)

Measure Up!

Hosea 11:1-2, 7-10; 12:1-2, 6-14

Much of Israel's wealth was created by economic injustice. There are stark parallels between Israel and the United States. Leading historians have demonstrated that much of the wealth of the U.S. was created directly or indirectly by slavery and the racial caste system born after its demise. This week consider what economic policies should be changed to bring the nation into greater alignment with the will of God.

Is there a difference between being poor when one was once rich and having always been poor? Which mentally do you believe is more difficult?
